Charotar University of Science and Technology | Expected 2028 | Pursuing

TECHNICAL SKILLS

Languages & Web: HTML, CSS, JavaScript

Frameworks & Libraries: React.js, Node.js, .NET

Database: MongoDB

Core Areas: Web Development, REST APIs, Full Stack Application Design

PROJECTS

Billing & Order Management System — Jalaram Distributors

my-dad-shop-billing-software.vercel.app

- Built a complete billing and inventory management system for wholesale distribution, installable as a web app for daily business use.
- Designed features for order tracking and inventory management to streamline day-to-day shop operations.

Wholesale E-Commerce Platform — Jalaram Distributors

namya-patel-001.vercel.app

- Developed a professional wholesale e-commerce front end for product browsing and sales.
- Built as a dynamic single-page application, deployed and hosted on Vercel.

Company Website — Samrudhhi Agri Tech Pvt Ltd

www.samrudhhiagri.com

- Built a multi-page business website for an agricultural equipment manufacturer, featuring a product catalog, dealer/service locator, and multilingual inquiry form (English, Hindi, Gujarati, German).
- Implemented an interactive "Smart Machine Finder" tool that recommends products based on crop type, land size, and budget.
- Added region-specific landing pages and WhatsApp-integrated inquiry handling to support real business operations.

STRENGTHS

- Strong academic record (9.8 CGPA) reflecting consistency and discipline
- Proven ability to independently design, build, and deploy production-ready applications
- Quick learner, comfortable picking up new frameworks and tools as needed
